## FOR THE RECORD

The Sources section of "Up in the Clouds" (April/May 2017, page 114) should have identified the Modern Crystal Sphere Lamps (#5-7102) in the master bedroom as coming from Regina Andrew Design Inc. in Riverview, Michigan; 734-250-8042, reginaandrew.com.

"This Project Calls for a Landscape Architect" (April/May 2017, page 74) includes a sidebar titled "What It Means" that incorrectly describes some of the credentials of landscape architects. Following is the correct information, provided by Joanne Diez, president of the New Jersey chapter of the American Society of Landscape Architects.

**ASLA** — Denotes membership in the American Society of Landscape Architecture. Founded in 1899, ASLA is the national professional association for landscape architects, representing more than 15,000 members. Members of the society use the ASLA suffix after their names to denote membership and their commitment to the highest ethical standards of the profession. Members are not necessarily licensed, in which case they are not allowed to call themselves a landscape architect.

**PLA** — Professional Landscape Architect. This person is licensed in his or her state, but not necessarily a member of ASLA.

**LLA** — Licensed Landscape Architect. A landscape architect licensed in the state of New Jersey, having fulfilled the requirements to practice. This includes passing the comprehensive, four-part Landscape Architecture Registration Examination, license to practice (issued by the state), and a specified number of years in professional practice. Continuing education credits are required for renewal every two years. LLAs do not necessarily belong to ASLA.

**SITES AP** — Accredited Professional. Certification in sustainable landscape design and development by the U.S. Green Building Council. Requires examination to achieve certification and ongoing continuing education credits to maintain.
